Darryl,

Attached is a RLSO version addressing Lanelle's comment by using the new template C. We have no questions for Lanelle. Please let us know if you need anything else.

Thanks,

Claudia

Importance: High

Hi there,

I spoke to Darryl at OP this morning. Please see the comments below thus far on the FIP. We have been asked to address these comments, and send a revised version back to Darryl. Please make this a priority. Let me know if you have any questions.

Thanks,

Dee

Hi Stephanie,

It has an impact on a small entity, but it can be certified so it is new template C.

In these situations, we need to review the screening analysis that goes with the preamble language. Do you have that available?

One comment I do have is that they should not cite EPA's RFA guidance for the reason they are using the thresholds they chose (the sentence that includes footnote 92). Our guidance presents the thresholds as examples and states that they should not be cited.

Lanelle

Hi Lanelle,

Can you take look at the RFA section? The program's using the old templates and I wanted you to take a look to see which new template you suggest.

Thanks,

Stephanie

Subject: RECEIVED in OP for Approval for OMB - 'Federal Implementation Plan for Existing Oil and Natural Gas Sources; Uintah and Ouray Indian Reservation in Utah' (5872)

Today, OP received R08's 'Federal Implementation Plan for Existing Oil and Natural Gas Sources; Uintah and Ouray Indian Reservation in Utah' (5872). This tier 3 NPRM is in OP for approval to transmit to OMB for interagency review. This is a standard review. ADP Tracker has been updated.
